

Eva's Angels is a charity lovingly dedicated to our beautiful five year old daughter, Eva Giles.

Eva lost her battle to Diffuse Intrinsic Pontine Glioma (DIPG) a rare childhood brainstem tumour, in April 2017.

Eva's Angels provides short breaks in our caravan on the Kent coast, for families who are affected by childhood cancer.

We will also target promising brain tumour research projects to fund as we grow. Please check our blog for information and ways to help us fundraise.
